

# HEALTH PROFESSIONS PROGRAMS

---

LSSC offers three limited-access health professions associate degree programs. Each program has specific program prerequisites required before admission to the program. Prospective students must first apply to LSSC and complete prerequisite coursework (if applicable). When ready, students may submit the program application, which is available only at designated times each year. For questions regarding program start dates, please contact the Enrollment Service Center (<https://www.lssc.edu/dept/enrollment-service-center/>). Select a program below to learn more about the program-specific admission requirements:

1. Associate in Science in Medical Laboratory Technology (<https://lssc-public.courseleaf.com/admissions-records-registration/admissions/health-profession-programs/medical-lab-tech/>)
2. Associate in Science in Nursing (<https://lssc-public.courseleaf.com/admissions-records-registration/admissions/health-profession-programs/nursing/>)
3. Associate in Science in Respiratory Care (<https://lssc-public.courseleaf.com/admissions-records-registration/admissions/health-profession-programs/respiratory-care/>)
