

STUDENT WELLNESS

LSSC models a commitment of providing a holistic approach to student health, personal safety, and overall wellness. This is done through a comprehensive portfolio including: the LSSC Student Assistance Program (SAP), LSSC's wellness education program, LSSC Lakehawks' Harvest Food Pantry, the LSSC Safety App, and through the development of robust student resource and advocacy partnerships.

Information regarding the Office of Student Wellness is available on the LSSC website (<https://www.lssc.edu/student-resources/student-wellness/>) or by calling 352-435-6335. All currently enrolled LSSC students also have access to the information available on the Canvas 'Student Wellness and Life Skills' (<https://lssc.instructure.com/courses/20093>) shell.
